

FULLY-FUNDED SCHOLARSHIP OPPORTUNITY

Apple Developer Academy @BINUS – Bali, 2026 Cohort

The Center for Global Education is pleased to inform students about the Apple Developer Academy @BINUS – Bali program, which is now accepting applications for its 2026 cohort. This is a highly competitive, fully funded scholarship program aimed at training the next generation of professional app developers with creative design thinking and sustainable career development skills for the digital age.

Program Highlights:

- **Full Scholarship:** No registration or tuition fees are required.
- **Open Eligibility:** Open to all individuals aged 18 and above, with no maximum age limit and no specific academic degree requirements. The program encourages applicants from diverse academic and professional backgrounds.
- **9-Month Training Program:** Focuses on app development, design thinking, and professional soft skills.
- **Certificate of Completion:** Participants who successfully complete the program (with a maximum of 9 days of absence) will receive an official certificate from the Academy.
- **Credit Transfer Opportunity:** Although the program does not include formal examinations, CTU students may apply for **credit recognition** (equivalent to two semesters) based on consultation with CTU academic advisors and Academy mentors. Full learning documentation must be provided.

Application Information:

- **Application Deadline:** Before 3:00 PM (Vietnam time), **June 20, 2025**.
- **Selection Process:** The entire process, from application submission to entrance exams and interviews, takes place online. Candidates only need to travel to Bali after official acceptance.
- **How to Apply:** Submit your application online at: [Apple Developer Academy @BINUS – Bali](#)

Who Should Apply?

- Currently enrolled university students.
- Recent university graduates.
- Alumni seeking career development in digital technology and app development.

This is an ideal opportunity to broaden international perspectives, acquire practical skills, and join the global app development community.
