

ANNOUNCEMENT: GLOBAL SCALE INNOVATOR PROGRAM FOR SUSTAINABLE SOCIETY (GIPS) – TOKYO CITY UNIVERSITY

The Center for International Training is pleased to share information about the Global Scale Innovator Program for Sustainable Society (GIPS), organized by Tokyo City University (TCU).

This program is designed to equip students with essential knowledge and skills to become innovators and changemakers in addressing global environmental challenges. GIPS welcomes students who are passionate about sustainability, eager to act as future innovators, and capable of leading efforts that create a positive social impact.

A notable highlight of the program is its financial support from Japan's Ministry of Education, Culture, Sports, Science and Technology (MEXT). Selected students under the government-sponsored category will receive a monthly scholarship and full tuition exemption, making this an outstanding opportunity for Vietnamese students to access world-class education in Japan without financial burden.

Further Information and Application Guidelines:

Program Overview (English): <https://www.tcu.ac.jp/english/admission/graduate/>

Application Guidelines (PDF):
