

Announcement: 2025 Fall INTENSE Master's Programs – National Chung Hsing University (NCHU), Taiwan

STUDY OPPORTUNITY FOR MASTER'S DEGREE IN TAIWAN – 2025 FALL INTENSE MASTER'S PROGRAMS AT NCHU

National Chung Hsing University (NCHU), Taiwan, is now accepting applications for its INTENSE Master's Programs for the Fall 2025 intake. This international program combines academic learning with practical industry experience, co-sponsored by the Taiwanese government and partner enterprises. Its goal is to cultivate high-quality professionals for the Asian region.

The INTENSE programs feature specialized coursework, instruction from experienced faculty members, and paid internship opportunities. Certain programs also offer post-graduation employment commitments. Students may choose to study in either English or Chinese, depending on the chosen major.

Available Majors include:

- Biomedical Engineering, Intelligent Science, Engineering and Technology (ISET)
- Civil Engineering
- Electrical Engineering – Optoelectronics Program
- Environmental, Technological, and Applied Engineering Fields

Scholarship Benefits

- Full tuition waiver (up to NTD 100,000/year)
- Monthly living allowance (NTD 10,000–12,500)
- One-way airfare
- Coverage for health check, visa, and insurance fees
- Industry internships with financial support

Eligibility Requirements

Applicants must be non-Taiwanese citizens holding a bachelor's degree (prior to enrollment), with adequate proficiency in English or Chinese. Candidates should have a clear intention to pursue an international career in engineering or technology-related fields.
