

## **International Exchange Opportunity for Early Career Researchers at the University of Southampton**

The Center for Global Education is pleased to announce the *Early Career Researchers Exchange Program*, hosted by the **University of Southampton (UoS), United Kingdom**, in collaboration with **Can Tho University**.

This program targets early career researchers, academic staff, and postgraduate students currently working or studying at universities and research institutions across Asia, especially Vietnam. It aims to foster interdisciplinary research collaboration in key areas such as sustainable development, climate change, environment, and social sciences.

### **Program Objectives:**

- Strengthen research capacity for young scientists
- Expand international academic networks
- Support the development of joint research proposals and project ideas
- Contribute to sustainable academic development across the region

### **Program Benefits:**

- Participate in a **two-week professional exchange program** at UoS
- Engage with professors, research groups, and academic centers in the UK
- Attend seminars, workshops, and cultural exchange activities
- Explore potential PhD research topics and scholarship opportunities

### **Eligibility Criteria:**

- Academic staff, researchers, or postgraduate students with a clear academic trajectory
- Experience in fields related to sustainability, environmental studies, social sciences, or governance
- Proficiency in academic English for research and collaboration
- Preference will be given to applicants with prior involvement in international projects or connections with UK-based partners

**Program Duration (Tentative):** July 2025, at the University of Southampton, United Kingdom

**Application Information:** Details on application requirements, eligibility, and submission guidelines will be announced via email and on the official website of the Center for Global Education. Interested candidates are encouraged to stay updated and seize this valuable opportunity.

This program serves as an ideal platform for early career researchers to gain international exposure, enhance their academic capacity, and contribute meaningfully to the global research community.
